In the excerpt _____ the article “In our times of division ‘To Kill a Mockingbird’ offers lessons in empathy”, written by Michael Gerson and published in the Washington Post on 2 Nov 2016, the author _____ the novel’s value and Harper Lee’s insightful skills.

Gerson _____ three central aspects when lauding the novel:

_____, he _____ that “To Kill a Mockingbird” – _____ its author’s secluded life – has exerted an influence of great magnitude, especially with regard to its role during the civil rights movement. _____ Gerson, it essentially served as a vindication of the movement and was particularly influential among the white population.

_____, the author _____ that “To Kill a Mockingbird” can by no means be regarded as children’s literature as it deals with serious, and perhaps unpalatable, issues. _____, the novel’s narrative perspective must not be confused with its target group.

_____, the author sheds light on Harper Lee’s view of humankind. _____ her characters can be inherently evil, Gerson _____ that her characters have the ability to change for the better. Thus, the novel generally views people in a positive light, especially as Scout changes her verdict of some of the characters. While Gerson lauds “To Kill a Mockingbird”, King _____ that the novel’s literary merit is questionable. In his article “Mockingbird hits false note”, which was published in *The Australian* in 2010, he argues that the book’s narrative voice – it is told from a child’s perspective – cannot be reconciled with the harsh realities of racism in America. While he _____ that “To Kill a Mockingbird” has significantly impacted the civil rights movement, the novel is dwarfed in comparison with famous Afro-American writers. This, according to King, is mainly _____ the simplistic treatment of the black community. Moreover, King disapproves of the invisibility of blacks in the novel. Scout’s perception, in his view, focuses on the Finches, and makes the novel a children’s book. Thus, the two texts _____ two differing perceptions of the novel.
